**Missions in Guinea Bissau - Defluoridation in Ethiopia - Prunettes in Rwanda - PS76 on TV**

Dear Friends,

this year we turn to you for support that does not cost anything, but that can help the success of our projects. This is the **signature for the 5/1000** on the CUD, UNICO or 730 of our association. Just choose our tax code **95095210100** in the space of such models. The funds raised will enable the pursuit of more projects and reach more people in our initiatives.

Our current projects are:

### GUINEA BISSAU

We got a contribution from the Liguria region for the project **026 Creating a Training Centre for the Production of palm oil**. A center that makes available to affected villages processing techniques for efficient and profitable palm fruits while respecting the local tradition. The region has already paid the first part of financing.

Gianfranco concluded in mid-March its second mission in the project **011 Ecotourism**, which served to set the organization of the tourist park Cacheu; at this point it's up to Tania (NGO Amigos from Guinea Bissau, our partners on the ground) and Ester (technician of the Ministry of Tourism) achieve their goals, helped by Isa, who is on a mission in the country from May to July in order to follow the various active projects.

### ETHIOPIA

Pino has just returned from his mission in

Ethiopia in the area of Rift Valley, where, in addition to installing and starting a plant for the removal of fluoride from drinking water with reverse osmosis principle, has made contact to initiate the establishment of a local company able to address and manage the technical problems and service facilities for water defluoridation that has been and will be made in that country (project **025**).

### RWANDA

Is still active the project of cultivation the "Prunettes du Japon", with estimates of the first fruits harvest at the end of year: we hope to talk about it next time.

### PS76 on TV

PS76 will appear in the next episode of the TV show "The Other Page" discussing the hunger and thirst in the world, led by Hon. Egidio Pedrini.

Which concrete actions and organic? Which valorization of resources?
